State-of-the-art topics

Advances in Deep Generative Models for Medical Artificial Intelligence

TOPICS INCLUDE:

- ✓ Generative Adversarial Networks in Medical Imaging
- ✓ Deep Generative Models for Precision Medicine
- ✓ Deep Generative Models in Cancer Imaging
- ✓ Deep generative models for disease modeling and prognosis
- ✓ Deep Generative Models on Edge Devices for Medical AI
- ✓ Neural Diffusion Models for Medical Image Synthesis
- ✓ and similar topics.

IMPORTANT DATE

30 NOV 2022	31 JAN, 2023	31 MAR 2023	30 APRIL 2023	30 MAY 2023
Abstract submission	Full chapter submission	Reviews notification	Revised submission	Camera-ready submission

Editors:

- ✓ Dr. Hazrat Ali
- ✓ Dr. Mubashir Husain Rehmani
- ✓ Dr. Zubair Shah

Participant universities:

-  Hamad Bin Khalifa University
Qatar
-  Munster Technological University
Ireland
